

PROFESSIONAL SUMMARY

Performance-driven and technically robust professional with 10+ years of experience in data-driven environments, transitioning into Data Science. Certified in Master Data Science from GUVI IITM Pravartak Technologies. Proven expertise in building end-to-end machine learning pipelines, deep learning computer vision models, and interactive data applications. Adept at leveraging a strong foundation in Python, SQL, Bulk APIs, and business intelligence tools to extract actionable insights from lakhs of records and solve complex business problems.

WORK EXPERIENCE

EDUCATION

2015  
MADRAS UNIVERSITY  
• BSC, Computer Science

CORE SKILLS

Data Science & ML:

- Machine Learning
- NLP
- Computer Vision
- Deep Learning
- Exploratory Data Analysis (EDA)

Languages & Databases:

- Python
- SQL
- REST & Bulk APIs

Libraries & Frameworks:

- TensorFlow
- Pandas
- NumPy
- Scikit-Learn

Data Visualisation & Apps:

- Streamlit
- Power BI dashboards
- Data modelling

Platforms:

- Git/GitHub
- AWS
- Jira
- Confluence

GitHub Link/Certifications:

[Github-Selvam](#)

Senior Application Engineer, IDP Education Pvt Ltd 2023 - Present

- Big Data Engineering: Engineered and optimized heavy data extraction pipelines using Bulk APIs to process and transfer lakhs of records efficiently across SaaS enterprise platforms.
- Data Modeling & BI: Designed, developed, and maintained robust Power BI dashboards, implementing advanced data modeling to track platform engagement, triggers, and key performance metrics for global stakeholders.
- System Integration: Utilized Python and platform APIs to synchronize multi-channel customer activity datasets, ensuring data integrity, high accuracy, and reliable lead scoring workflows.
- Advanced Analytics: Conducted deep-dive campaign activity and user behavior analysis, translating raw operational data into actionable business insights.

Application Engineer - SaaS Platforms, IDP Education Pvt Ltd Oct 2022 - Jun 2023

- Pipeline Architecture: Configured and supported early-stage data adoption workflows, migrating chatbot and messaging system interaction logs into centralized reporting layers.
- Dashboard Development: Built internal tracking dashboards to analyze user engagement metrics and system operational performance, automating manual report gathering.

Senior Data Analyst, Hotcourses India, Pvt Ltd Nov 2017 - Sep 2022

- Automated end-to-end data extraction and preprocessing pipelines, significantly minimizing manual effort and improving pipeline operational efficiency.
- Performed Exploratory Data Analysis (EDA) on large, structured datasets, ensuring maximum data hygiene and accurate business reporting.

Document Specialist, iMarque Solutions Pvt. Ltd Aug 2015 - Nov 2017

- Handled data analysis and quality checks for large datasets.
- Managed client data operations and documentation processes.
- Ensured data quality and accuracy across multiple workflows.

Technical Project Highlights:

- Developed SmartVision AI image classification model using TensorFlow to identify 24 distinct categories
- Applied K-Means Clustering for multi-dimensional Customer Segmentation.
- Engineered Amazon Analytical app using Streamlit, SQL, and Pandas

CERTIFICATIONS

- Certification in Master Data Science Program - GUVI IITM Pravartak Technologies
